Sopan Ahmed

Sr. Android App Developer at ACI Limited
Dhaka

Summary

Software engineer with 7+ years of experience. Working as an Android developer since 2015, and enjoy collaborating with the different product areas: scrum, refinement, UI/UX. I have extensive work experience on Mobile Application Development, Development Planning, Wireframing, Agile Development, and Team Lead. Have a passion for code craftsmanship and design. Love to make great products specially which impact on people's everyday life.

I value the following aspects from a company and role:
• Make things simple.
• Challenging projects.
• Great values and teammates.
• Room to mentor my peers.
• Next-generation technologies and its impact on software as a service.
• Growth opportunities, career plan, feedback, and goals.
• Focus on the customer/end-user, customer satisfaction, and quality assurance.
• Data-driven decision making, analysis of metrics, and monitoring product usage in production.
